24th Street repairs set to start this month

SAN BERNARDINO - Crews are scheduled to begin an asphalt-concrete overlay project on 24th Street between San Antonio Avenue and Cliff Road later this month in accordance with a \$333,867 contract approved by the Board of Supervisors on Tuesday.

San Bernardino County Public Works examined the roadway and determined an overlay project was necessary because the existing road surface has deteriorated considerably. Twenty-fourth Street is located on the border of the City of Upland and the unincorporated community of San Antonio Heights, which leaves it in jurisdictional limbo when it comes to repairs and maintenance.

"We worked with the City and came up with an equitable funding agreement to make this repair project happen so all of our residents can have a smoother drive on 24th Street," Board of Supervisors Chairman Paul Biane said.

The County agreed to cover 60 percent of the project while the City agreed to fund 40 percent. The project is scheduled to be completed in late February.
